manusa

Automatic doors

Created in 1966, Manusa is a leading company in the market of automatic doors thanks to the development of its own technology and a professional team that works to achieve full customer satisfaction.

Quality & Service Experience

Technology and manufacturing 100% Manusa

Manusa develops and manufactures all its products. From our headquarters in Sant Cugat del Vallès (Barcelona) and our facilities in Valls (Tarragona), we give response to the needs of all our customers.

More than 45 years of experience.

Right from the start we have been committed to innovation and technology to provide our customers the best product, adapted to the market and their needs.

We leave nothing to chance.

We only use top quality materials for the manufacture of our doors and they are subject to the strictest quality controls.

During the production process we test them one by one with continuous opening and closing for 24 hours to guarantee they function perfectly.

Exclusive solutions for every customer.

Our team of professional experts, designs, manufactures, installs and maintains more than 20,000 doors each year. This leading infrastructure means we can guarantee an immediate response and offer the best service.

The satisfaction of our customers is our reward and this drives us to keep improving every day.

International presence.

We are present in more than 70 countries through exclusive distributors that have received training at our facilities in Spain to guarantee our consistently high level of customer support and service.
